EXPERIENCE

During my studies at the **Faculty of Computers and Artificial Intelligence, Benha University**, I acquired essential skills and experiences that enhance my ability to work efficiently as a **Data Analyst**, including:

- **Teamwork:** Collaborated on group projects, coordinated tasks among team members, and worked towards common goals.
- **Working Under Pressure:** Completed academic and practical projects within tight deadlines while maintaining high-quality work.
- **Time Management:** Balanced multiple responsibilities such as studying, projects, and exams, improving my planning and organizational skills.
- **Problem-Solving:** Analyzed and tackled programming challenges using logical thinking and data-driven approaches.
- **Self-Learning Ability:** Continuously explored new technologies and improved my technical skills through online courses and hands-on projects.
- **Effective Communication:** Presented projects to professors and peers and wrote clear and well-structured technical reports.
- **Technical Skills:** Gained proficiency in **SQL, Python, and Microsoft Excel**, essential tools for data analysis and database management.

A DAY OF MY LIFE

- Studying on datacamb
- Eating & praying & Reading
- Playing video games
- Making Data Analysis projects
- Sleeping & dreaming about projects

LIFE PHILOSOPHY

"Continuous growth and resilience define success. I believe in lifelong learning, embracing challenges as opportunities, and staying adaptable in an ever-evolving world. Through dedication, teamwork, and a problem-solving mindset, I strive to make a meaningful impact and turn obstacles into stepping stones toward excellence.."

MOST PROUD OF

🏆 **Analytical Mindset**
Developed strong problem-solving skills through data analysis and coding projects.

💗 **Team Collaboration**
Successfully worked in team environments, fostering cooperation and effective communication

📈 **Adaptability Under Pressure**
Thrived in high-pressure academic and project settings, meeting deadlines efficiently.

STRENGTHS

Programming & Scripting

Database Management

Data Analysis & Visualization

Business Intelligence Tools
